I. Content Validation

Albert Einstein College of Medicine, in accordance with the Accreditation Council for Continuing Medical Education (ACCME), and the American Medical Association (AMA) policies on assuring the independence of CME activities requires all CME faculty to attest that:

- 1) All the recommendations involving clinical medicine in a CME activity are based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients (ACCME July 2002);
- 2) All scientific research referred to, reported or used in a CME activity in support or justification of a patient care recommendation conforms to the generally accepted standards of experimental design, data collection and analysis (ACCME July 2002); and
- 3) Research findings and therapeutic recommendations are based on scientifically accurate, up-to-date information and are presented in a balanced, objective manner (AMA 2002).

Please acknowledge that you agree to follow the standards outlined above:

II. Commercial Bias

The Standards for Commercial require that your presentation be free of commercial bias and that any information regarding commercial products/services be based on scientific methods generally accepted by the medical community. Presentations must give a balanced view of therapeutic options. When discussing therapeutic options, it is our preference that you use only generic names. If it is necessary to use a trade name, then those of several companies, where available, must be used.

I attest that my presentation will be fair and free of commercial bias:
