

The Montefiore / Einstein Fibroid Center

Do you suffer from heavy menstrual bleeding caused by **FIBROIDS**?

HYSTERECTOMY IS NOT THE ONLY SOLUTION

There are different approaches for the treatment of fibroids. Montefiore Medical Center is the **ONLY SITE ON THE EAST COAST** conducting a clinical research trial to evaluate a new, minimally-invasive surgical procedure to treat fibroids.

You may qualify to participate if you:

- Have heavy menstrual bleeding associated with fibroids
- Have completed child-bearing

If you are selected for the study, you will receive study-related care at **NO COST** as well as compensation for your time and travel.

For more information, or if you think you might be interested, please call Montefiore Medical Center for screening:

Maureen Magnani: (718) 405-8396

The research study is being conducted and supervised by

**Drs. Erika Banks, Scott Chudnoff, Janice Falls, and Mark Levie
of the Department of Obstetrics & Gynecology
and Women's Health**

**Albert Einstein College of Medicine and Montefiore Medical Center
Sponsored by Halt Medical, Inc.**
