

Statement of Need

Practicing physicians and nurses need current information on important topics within the field of surgery.

Goals/Objectives

These lectures focus on practical applications that will be helpful in caring for patients. The goal of these activities is to provide theoretical background, practical examples and didactic material which will lead to an interchange of experience between participants and faculty.

At the end of these activities, participants should be able to:

1. Attendees will become aware of evidence-based practices of the best surgical techniques.
2. Attendees will be introduced to new technology in the treatment of genetic defects.
3. Identify the newest and latest trends in cancer treatment methods in surgical oncology.

Accreditation Statement

Albert Einstein College of Medicine of Yeshiva University designates this live educational activity for a maximum of *1 AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Albert Einstein College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Conflict of Interest Statement

The "Conflict of Interest Disclosure Policy" of Albert Einstein College of Medicine of Yeshiva University requires that faculty participating in any CME activity disclose to the audience any relationship(s) with a pharmaceutical or equipment company. Any presenter whose disclosed relationships prove to create a conflict of interest, with regard to their contribution to the activity, will not be permitted to present.

Albert Einstein College of Medicine of Yeshiva University also requires that faculty participating in any CME activity disclose to the audience when discussing any unlabeled or investigational use of any commercial product or device, not yet approved for use in the United States.

Special Needs

Albert Einstein College of Medicine Yeshiva University and Montefiore Medical Center fully comply with the legal requirements of the Americans with Disabilities Act. If any participant is in need of special accommodations, please contact Ragini Mehta at 718-920-2400.

Sponsorship

Sponsored by Albert Einstein College of Medicine of Yeshiva University and Montefiore Medical Center.

Montefiore
THE UNIVERSITY HOSPITAL

Recognized by *U.S. News & World Report* as a leader in specialty and chronic care, Montefiore is the University Hospital for Albert Einstein College of Medicine.

Masters of Surgery: Visiting Professor Series 2012–2013

MARK TAYLOR, MSW, EdD

Founder, Generation NeXt

Residency Training for Generation NeXt: Implications for Trainees and Faculty
September 17, 2012

Dr. Taylor is a well-known educator, expert, speaker and consultant who helps colleges and universities better serve students and prepare them for post-college life. He also works with businesses and organizations so they can better manage their multigenerational workplaces, and successfully bring younger workers into productive roles. He has worked with more than 350 schools in the United States and Canada, and consulted with business clients such as 20th Century Fox, Wal-Mart, the University of Tennessee Hospital and the U.S. Army.

Dr. Taylor holds a bachelor's degree in psychology and biology, a master's degree in social work and a doctorate in counseling, all from the University of Arkansas. He was most recently the Director of Guidance Services at Arkansas State University at Beebe. He left that position in January 2006 to continue his research and programs to improve educational services to Generation NeXt. He has also worked as a college professor and academic administrator, medical administrator and clinical psychotherapist.

JOHN A. PERSING, MD

Irving and Silik Polayes Professor of Plastic Surgery;
Professor, Neurosurgery; Chief, Section of Plastic Surgery,
Yale School of Medicine

Evolution and Development of Surgery for Craniosynostosis
October 8, 2012

Dr. Persing is a plastic surgeon and neurosurgeon whose clinical interests include craniofacial deformities, vascular malformations and cosmetic surgery of the face and body. He is a well-published scholar and recipient of many prestigious awards, including the Clinician of the Year Award from the American Association of Plastic Surgeons.

He has been president of the Plastic Surgery Foundation, the American Society of Maxillofacial Surgeons, the Association of Academic Chairmen of Plastic Surgery, and the American Association of Pediatric Plastic Surgeons, and he has served as chair of the American Board of Plastic Surgery and is the immediate past president of the Plastic Surgery Education Foundation. Dr. Persing is currently vice president of the American Association of Plastic Surgeons. He earned his MD from the University of Vermont.

IRA J. FOX, MD

Professor, Surgery and Transplantation,
University of Pittsburgh School of Medicine
Medical Director, McGowan Institute for Regenerative Medicine
Director, Center for Innovative Regenerative Therapies,
Children's Hospital of Pittsburgh

Bench to Bedside: Finding Alternatives to Organ Transplantation for Patients with Life-Threatening Liver Disease
November 5, 2012

Dr. Fox is a transplant surgeon and pioneering researcher focused on developing alternative therapies for liver disease, such as liver assist devices, liver cell transplantation and liver stem cells. His research includes examining the biologic and immunologic barriers to successful transplantation of primary and xenogeneic hepatocytes in rodents and primates.

Dr. Fox's work has been regularly supported by the National Institutes of Health. He holds two investigational new drug patents and has authored over 100 peer-reviewed publications as well as 10 book chapters. Dr. Fox graduated A.B. cum laude from Harvard University with a degree in chemistry and physics, and obtained his MD from the College of Physicians and Surgeons at Columbia University. He completed postdoctorate fellowships at Harvard Medical School and the University of Pittsburgh School of Medicine.

DUKE E. CAMERON, MD

The James T. Dresher Sr. Professor of Surgery,
Professor of Cardiac Surgery and of Pediatrics,
Acting Cardiac Surgeon-In-Charge,
The Johns Hopkins Hospital

Director, The Dana and Albert "Cubby" Broccoli Center for Aortic Disease
Progress in Aortic Root Surgery
December 3, 2012

Dr. Cameron was the inaugural recipient of the James T. Dresher Sr. Professorship of Cardiac Surgery at The Johns Hopkins Hospital, and is recognized as a leader in surgical innovation, in clinical excellence and in the education of young surgeons. He is a national expert in pediatric cardiac surgery, pathophysiology of cardiopulmonary bypass, surgery for Marfan syndrome, and aortic surgery including valve-sparing root replacement.

Dr. Cameron's research has focused mainly on inflammatory mediators and cardiopulmonary bypass, work that was supported by the National Institutes of Health. He is the recipient of numerous awards and honors, and is treasurer-elect of the American Association for Thoracic Surgery. Dr. Cameron graduated from Harvard University magna cum laude, and obtained his MD from Yale Medical School.

GERALD IMBER, MD

Clinical Assistant Professor of Surgery, Weill Cornell Medical College
Attending Surgeon, NewYork-Presbyterian Hospital
Halsted: The Subjectivity of Greatness
January 7, 2013

Dr. Imber is a well-known plastic surgeon with a special interest in facial rejuvenation and the treatment and prevention of early facial aging. He is the author of numerous scientific papers about plastic surgery, as well as several books, including *The Youth Corridor* and *Genius on the Edge: The Bizarre Double Life of Dr. William Stewart Halsted*.

Dr. Imber is a graduate of SUNY Downstate Medical Center and received his surgical training at Long Island Jewish Medical Center and Kaiser Permanente, and his plastic and reconstructive surgery training at the NewYork-Presbyterian Hospital/Weill Cornell Medical Center, where he has been on staff since 1974.

WILLIAM P. MAGEE, JR., DDS, MD

Founder and Executive Chairman, Operation Smile
Co-Director, Institute for Craniofacial and Plastic Surgery,
Children's Hospital of The King's Daughters
Associate Professor, Plastic Surgery, Eastern Virginia Medical School
President, Magee-Rosenblum Plastic Surgery

The Power of Medicine

March 4, 2013

Dr. Magee is a plastic and craniofacial surgeon who in 1982 founded Operation Smile with his wife, Kathleen S. Magee. Active in more than 60 countries, the charity provides free reconstructive surgeries for children and young adults born with cleft lips, cleft palates and other facial deformities. To date, Operation Smile has provided more than two million comprehensive healthcare evaluations and over 200,000 free surgeries.

Dr. Magee has been awarded the Hays-Fulbright Scholar Grant from the Franco-American Commission, the Pride in the Profession Award from the American Medical Association, and the Distinguished Service Award from the American Society of Plastic Surgeons. He received his DDS from the University of Maryland and his MD from George Washington University Medical School.

PATRICIA K. DONAHOE, MD

Director, Pediatric Surgical Research Laboratories
Chief Emerita, Pediatric Surgical Services,
Massachusetts General Hospital
Marshall K. Bartlett Professor of Surgery,
Harvard Medical School

Genetics and Genomics to Uncover the Etiology of Birth Defects: Congenital Diaphragmatic Hernia
April 1, 2013

Dr. Donahoe has spent almost her entire career at Massachusetts General Hospital pursuing a wide range of pediatric surgical and research endeavors. Her major research interests include understanding the molecular and genetic causes of congenital diaphragmatic hernia.

Dr. Donahoe is also an associate faculty member of the Center for Human Genomic Research at Massachusetts General Hospital, a member of the Board of Trustees at Boston University, and president of the New England Surgical Society. She is the recipient of the Department of Defense Lifetime Achievement Academy Dean Award for ovarian cancer. Dr. Donahoe graduated with a bachelor of science magna cum laude from Boston University, and received her MD from Columbia University College of Physicians and Surgeons.

MANI MENON, MD

Rajendra and Padma Vattikuti Distinguished Chair
Director, Vattikuti Urology Institute, Henry Ford Health System
Clinical Professor, Urology, Case School of Medicine, University of Toledo, and NYU Langone Medical Center

We Should Not Treat Prostate Cancer!

May 6, 2013

Dr. Menon is an internationally recognized urologist. At Henry Ford Hospital, he introduced robotic surgery to the field of urology, and established the first ever urological robotics program. His approach has since become the gold standard for the surgical treatment of prostate cancer. Over the years, Dr. Menon and his trainees have helped establish 25 robotic surgery programs around the globe.

Dr. Menon is the recipient of the Gold Cystoscope award of the American Urological Association and India's prestigious Dr. B.C. Roy Award. He has published over 1,000 manuscripts, abstracts and book chapters, primarily in the fields of robotic surgery, renal transplantation and urolithiasis. Dr. Menon earned his MD from JIPMER Pondicherry in India, and at age 34 he became the youngest chairman of urology in the United States, at the University of Massachusetts Medical School.

ROBERT M. ZWOLAK, MD, PhD

Professor of Surgery, Dartmouth Medical School
Medical Director, Noninvasive Vascular Laboratory,
Dartmouth-Hitchcock Medical Center

Chief of Surgery, White River Junction VA Medical Center

Healthcare Reform: Impact on Surgery and Surgeons

June 3, 2013

Dr. Zwolak is a vascular surgeon who has written and taught extensively in the field of noninvasive vascular diagnostics and many other areas of vascular surgery and intervention. He is the immediate past president of the Society for Vascular Surgery, having chaired the organization's Health Policy Committee for 12 years, and remains active in high-level coding and reimbursement issues.

Dr. Zwolak serves on the American Medical Association/Specialty Society Relative Value Update Committee, is a member of the CMS Ambulatory Payment Category Panel, and is a past president of the New England Society for Vascular Surgery. He was recently appointed as a governor of the newly formed Patient-Centered Outcomes Research Institute, serving as the only surgeon in this prestigious organization. Dr. Zwolak obtained his MD and PhD from Albany Medical College.
