Recent data from the National Cancer Institute shows an overall decline in cancer incidence and mortality in the United States. Yet race, poverty, gender and other factors continue to contribute to poorer outcomes for many Americans. Join us for a program featuring keynote speaker Robert A. Winn, MD, nationally recognized expert in cancer-related health disparities, and Montefiore Einstein Cancer Center faculty as they examine these persistent inequities and the multi-faceted solutions that are needed to advance health equity in the Bronx and beyond.

You are invited to register for this free virtual educational event. Anyone interested in learning more about health disparities and health equity in cancer care is welcome.

For more information and to register, call Johnnie Hudson at 917-697-8633 or email johhudso@montefiore.org. You will receive Zoom webinar information upon registration.

**AGENDA**

**Noon**
- Welcome and Introduction of Speakers
  
  Amanda Rivera, MD

**12:10pm**
- Robert A. Winn, MD, Keynote Speaker
  - The Impact of Structure on Cancer

**12:50pm**
- Cancer Screening in Under-represented Communities in the Bronx: Lessons Learned
  
  Bruce Rapkin, PhD

**1:15pm**
