Skin Care Before, During and After Cancer Treatment

Gilda’s Club
New York City Lecture

Monday, April 6, 2015
6:30-8:00 pm
195 West Houston Street
New York, New York 10014

Speaker: Beth McLellan, MD
Attending Physician, Oncodermatology, Montefiore
Assistant Professor, Dermatology, Einstein
Director, Dermatology, Jacobi

Many cancer therapies can affect the skin, hair and nails. These side effects can present a range of challenges. Join Dr. Beth McLellan, a board-certified dermatologist who specializes in treating cancer patients, as she explains ways to prevent and treat these side effects and keep your skin healthy before, during and after cancer treatment.

Reservations required. Please call 212-647-9700
