such as internists, family practitioners, nurse practitioners, and physician assistants.

INTENDED AUDIENCE

After attending this activity, participants will be able to:

• To understand how advanced screening tools are enabling providers to identify a variety of cancers at an early stage, when they are most treatable.

The goals of this activity are:

ACTIVITY GOALS AND DESCRIPTION

• To increase awareness of the advanced screening tools as well as treatment options that are now available can help to reduce mortality and morbidity and improve quality of life for cancer patients.

Primary care and other front-line providers are uniquely positioned to identify early signs of cancer and appropriately send patients for cancer screening, resulting in identification of early stage disease and initiation of treatment. Their understanding of the advanced screening tools as well as treatment options that are now available can help to reduce mortality and morbidity and improve quality of life for cancer patients.

Early detection of several types of cancer in adults can significantly improve survival and reduce morbidity.

STATEMENT OF NEED

SCREENING AND DIAGNOSIS OF EARLY STAGE CANCERS: THE BEST DEFENSE IS A GOOD OFFENSE!

Approaches to Multiple Cancers, with a Focused Session on Lung Cancer Awareness

Thursday, November 8, 2018 | 8:00 – 5:00 PM

Albert Einstein College of Medicine
Price Center/Black Research Pavilion, LeFrak Auditorium
1101 Morris Park Avenue
Bronx, New York 10461

CANCER PROGRAM EDUCATION EVENT

Provided by Albert Einstein College of Medicine and Montefiore Medical Center

LUNG CANCER PROGRAM

10:10  Registration: Coffee and light breakfast

08:00  Welcome and Opening Remarks

Thomas J. Ow, MD

10:30  Reducing Lung Cancer Mortality: Screening and Early Diagnostics

Cling Ma, MD

12:00  Lunch Break

13:30  Non-Invasive and Invasive Assessment of Risk for Lung Cancer

Nitin Ohri, MD, MS

15:00  Liquid Biopsy in Lung Cancer: Diagnosis and Disease Monitoring

Haiying Cheng, MD, PhD

15:40  Closing Remarks

Anna Shmukler, MD

You are invited to register as free ONE once - anyone interested in learning more about cancer screening and early detection is welcome.

Attendees can attend remotely via teleconference to the following sites:

Whitman, Montefiore Cancer Institute; Yeshiva University Medical Center; White Plains Hospital. Please contact us should you have any questions.
