White Plains Hospital Center for Cancer Care and Montefiore Einstein Center for Cancer Care present

UPDATES IN THORACIC ONCOLOGY
Precision Medicine at the Forefront

This current CME course will provide a comprehensive overview of lung cancer treatment at the age of precision medicine, from staging to management of advanced disease. Expert speakers will discuss breakthroughs in workshops and treatment including novel bronchoscopically, minimally invasive thoracic surgery, targeted drug therapies, developmental nonlinear and novel radiation applications used alone or in combination for more effective outcomes, and the impact of these advances within the realm of education-based care.

Keynote talks by international experts will also highlight novel innovations to guide appropriate treatment choices as well as new developments in radiation, combined-modality therapy for stage II disease and will overview the rapidly evolving field of sequential ALK inhibitor therapy for ALK+ non-small cell lung cancer.

Keynote Speakers

Daniel B. Cress, MD, PhD, MA
Asst Professor of Medicine, Montefiore Medical Center

Jennifer D. Ensminger, MD
Professor of Obstetrics and Gynecology, Montefiore Medical Center

Amendments Statement

The workshop has been designed and accredited in accordance with the National Accreditation Agency and The National Board of Medical Examiners of the State of New York (NABME) for the provision of CME activities of the White Plains Hospital and Montefiore Medical Center. The New York Academy of Medicine is permitted by the National Board of Medical Examiners to accredit workshops and technical sessions for CME credit. The New York Academy of Medicine certifies that the technical sessions are activities of suitable length and content for maintenance of competency in the area.

Disclosures Statement

The White Plains Hospital and Montefiore, lacking the Board of New York, have no present or past, financial relationships with pharmaceutical companies, devices manufacturers, or other potential conflicts of interest. All authors have been advised of the National Academy of Medicine’s policy on conflict of interest. Of any such disclosures, if such a relationship is present, they are not likely to influence the content of the presentation.
