You must keep this certificate and have it available for inspection by the Tax Department.**

Resident and nonresident defined

To determine whether or not you are a resident of New York State, New York City, or Yonkers, you must consider your domicile and permanent place of abode. In general, your *domicile* is the place you intend to have as your permanent home. A *permanent place of abode* is a residence (a building or structure where a person can live) you permanently maintain, whether you own it or not, and usually includes a residence your husband or wife owns or leases.

Resident

New York State resident — You are a New York State resident if:

1. Your domicile is not New York State but you maintain a permanent place of abode in New York State for more than 11 months of the year and spend 184 days or more (any part of a day is a day for this purpose) in New York State during the taxable year. However, if you are a member of the armed forces, and your domicile is not New York State, you are not a resident under this definition; **or**
2. Your domicile is New York State. However, even if your domicile is New York State, you are not a resident if you meet **all three** of the conditions in either Group A or Group B as follows:

Group A

1. You did not maintain any permanent place of abode in New York State during the tax year, **and**
2. you maintained a permanent place of abode outside New York State during the entire tax year, **and**
3. you spent **30 days or less** (any part of a day is a day for this purpose) in New York State during the tax year.

Group B

1. You were in a foreign country for at least 450 days during any period of 548 consecutive days, **and**
2. you, your spouse (unless legally separated), and your minor children spent **90 days or less** (any part of a day is a day for this purpose) in New York State during this 548-day period; **and**
3. during the nonresident portion of the tax year in which the 548-day period begins, and during the nonresident portion of the tax year in which the 548-day period ends, you were present in New York State for no more than the number of days that

bears the same ratio to 90 as the number of days in such portion of the tax year bears to 548. This condition is illustrated by the following formula:

$$\frac{\text{number of days in the nonresident portion}}{548} \times 90 = \text{maximum days allowed in New York State}$$

To determine if you are a New York City or Yonkers resident, substitute *New York City* or *Yonkers*, whichever is applicable, for *New York State* in the above definition.

Nonresident and part-year resident

You are a *nonresident* if you do not meet the above definition of a resident. You are a *part-year resident* if you meet the definition of resident or nonresident for only part of the year.

Percent of services

The percent of services performed in New York State or Yonkers may be computed using days, miles, time, or similar criteria. For example, an individual working in New York State two out of five days for the entire year performs 40% of his or her services in New York State.

Instructions

New for 2011

If you completed a 2010 Form IT-2104 and computed an additional New York City withholding amount, you should complete a new 2011 Form IT-2104 and give it to your employer.

When reporting new hires or rehires, employers are now required to report if dependent health insurance benefits are available and the date the employee becomes eligible for the benefit.

Who should file this form

This certificate, Form IT-2104, is completed by an employee and given to the employer to instruct the employer how much New York State (and New York City and Yonkers) tax to withhold from the employee's pay. The more allowances claimed, the lower the amount of tax withheld.

If you do not file Form IT-2104, your employer may use the same number of allowances you claimed on federal Form W-4. Due to differences in tax law, this may result in the wrong amount of tax withheld for New York State, New York City, and Yonkers. Complete Form IT-2104 each year and file it with your employer if the number of allowances you may claim is different from federal Form W-4 or has changed. Common reasons for completing a new Form IT-2104 each year include the following:

- You started a new job.
- You are no longer a dependent.

- Your individual circumstances may have changed (for example, you were married or have an additional child).
- You itemize your deductions on your personal income tax return.
- You claim allowances for New York State credits.
- You owed tax or received a large refund when you filed your personal income tax return for the past year.
- Your wages have increased and you expect to earn \$100,000 or more during the tax year.
- The total income of you and your spouse has increased to \$100,000 or more for the tax year.
- You have significantly more or less income from other sources or from another job.
- You no longer qualify for exemption from withholding.
- You have been advised by the Internal Revenue Service that you are entitled to fewer allowances than claimed on your original federal Form W-4, and the disallowed allowances were claimed on your original Form IT-2104.

Exemption from withholding

You cannot use Form IT-2104 to claim exemption from withholding. To claim exemption from income tax withholding, you **must** file Form IT-2104-E, *Certificate of Exemption from Withholding*, with your employer. You must file a new certificate each year that you qualify for exemption. This exemption from withholding is allowable only if you had no New York income tax liability in the prior year, you expect none in the current year, **and** you are over 65 years of age, under 18, or a full-time student under 25. You may also claim exemption from withholding if you are a military spouse and meet the conditions set forth under the Servicemembers Civil Relief Act as amended by the Military Spouses Residency Relief Act. If you are a dependent who is under 18 or a full-time student, you may owe tax if your income is more than \$3,000.

Withholding allowances

You may **not** claim a withholding allowance for yourself or, if married, your spouse. Claim the number of withholding allowances you compute in Part 1 and Part 3 on page 3 of this form. If you want more tax withheld, you may claim fewer allowances. **If you claim more than 14 allowances**, your employer **must send** a copy of your **Form IT-2104** to the New York State Tax Department. You may then be asked to verify your allowances. If you arrive at negative allowances (less than zero) on lines 1, 2, 20, or 31, and your employer cannot accommodate negative allowances, **enter 0** and see *Additional dollar amount(s)* below.

Income from sources other than wages — If you have more than \$1,000 of income from sources other than wages (such as interest, dividends, or alimony received), reduce the number of allowances claimed on line 1 and line 2 (if applicable) of the IT-2104 certificate by one for each \$1,000 of nonwage income. If you arrive at negative allowances (less than zero), see *Withholding allowances* above. You may also consider filing estimated tax, especially if you have significant amounts of nonwage income. Estimated tax requires that payments be made by the employee directly to the Tax Department on a quarterly basis. For more information, see the instructions for Form IT-2105, *Estimated Income Tax Payment Voucher for Individuals*, or see *Need help?* on page 3.

Other credits (Worksheet line 13) — If you will be eligible to claim any credits other than the credits listed in the worksheet, such as an investment tax credit, you may claim additional allowances as follows:

- If you expect your New York adjusted gross income to be less than \$300,000, divide the amount of the expected credit by 70 and enter the result (rounded to the nearest whole number) on line 13.
- If you expect your New York adjusted gross income to be between \$300,000 and \$500,000, divide the amount of the expected credit by 80 and enter the result (rounded to the nearest whole number) on line 13.
- If you expect your New York adjusted gross income to be over \$500,000, divide the amount of the expected credit by 90 and enter the result (rounded to the nearest whole number) on line 13.

Example: You expect your New York adjusted gross income to be less than \$300,000. In addition, you expect to receive a flow-through of an investment tax credit from the S corporation of which you are a shareholder. The investment tax credit will be \$160. Divide the expected credit by 70. $160/70 = 2.2857$. The additional withholding allowance(s) would be 2. Enter **2** on line 13.

Married couples with both spouses working — If you and your spouse both work, you should each file a separate IT-2104 certificate with your respective employers. You should each mark an **X** in the box *Married, but withhold at higher single rate* on the certificate front, and divide the total number of allowances that you compute on line 20 and line 31 (if applicable) between you and your working spouse. Your withholding will better match your total tax if the higher wage-earning spouse claims all of the couple's allowances and the lower wage-earning spouse claims zero allowances. **Do not** claim more total allowances than you are entitled to. If you and your spouse's combined wages are between \$100,000 and \$1,100,000, use one of the charts in Part 4 to compute the number of allowances to transfer to line 19.

Taxpayers with more than one job — If you have more than one job, file a separate IT-2104 certificate with each of your employers. Be sure to claim only the total number of allowances that you are entitled to. Your withholding will better match your total tax if you claim all of your allowances at your higher-paying job and zero allowances at the lower-paying job. In addition, to make sure that you have enough tax withheld, if you are a single taxpayer or head of household with two

or more jobs, reduce the number of allowances by six on line 1 and line 2 (if applicable) on the certificate you file with your higher-paying job employer. If you arrive at negative allowances (less than zero), see *Withholding allowances* above.

If your combined wages are between \$100,000 and \$1,100,000, use one of the charts in Part 4 to compute the number of allowances to transfer to line 19. Substitute the words *Highest paying job for Higher earner's wages* within the charts.

Dependents — If you are a dependent of another taxpayer and expect your income to exceed \$3,000, you should reduce your withholding allowances by one for each \$1,000 of income over \$2,500. This will ensure that your employer withholds enough tax.

Following the above instructions will help to ensure that you will not owe additional tax when you file your return.

Heads of households with only one job — If you will use the head-of-household filing status on your state income tax return, mark the *Single or Head of household* box on the front of the certificate. If you have only one job, you may also wish to claim two additional withholding allowances on line 14.

Married couples with only one spouse working — If your spouse does not work and has no income subject to state income tax, mark the *Married* box on the front of the certificate. You may also wish to claim two additional allowances on line 15.

Additional dollar amount(s)

You may ask your employer to withhold an additional dollar amount each pay period by completing lines 3, 4, and 5 on Form IT-2104. In most instances, if you compute a negative number of allowances using the worksheet on page 3 and your employer cannot accommodate a negative number, for each negative allowance claimed you should have an additional \$1.90 of tax withheld per week for New York State withholding on line 3, and an additional \$0.80 of tax withheld per week for New York City withholding on line 4. Yonkers residents should use 10% (.10) of the New York State amount for additional withholding for Yonkers on line 5.

Note: If you are requesting that your employer withhold an additional dollar amount on lines 3, 4, or 5 of this allowance certificate, the additional dollar amount, as determined by these instructions or by using the chart in Part 4, is accurate for a weekly payroll. Therefore, if you are paid other than weekly, you will need to adjust the dollar amount(s) that you compute. For example, if you are paid biweekly, you must double the dollar amount(s) computed using the worksheet on page 3.

Avoid underwithholding

Form IT-2104, together with your employer's withholding tables, is designed to ensure that the correct amount of tax is withheld from your pay. If you fail to have enough tax withheld during the entire year, you may owe a large tax liability when you file your return. The Tax Department must assess interest and may impose penalties in certain situations in addition to the tax liability. Even if you do not file a return, we may determine that you owe personal income tax, and we may assess interest and penalties on the amount of tax that you should have paid during the year.

Complete all worksheets that apply. However, you may claim fewer (or zero) allowances. For regular wages, withholding must be based on allowances you claimed and may not be a flat amount or percentage of wages.

Head of household. Generally, you may claim head of household filing status on your tax return only if you are unmarried and pay more than 50% of the costs of keeping up a home for yourself and your dependent(s) or other qualifying individuals. See Pub. 501, Exemptions, Standard Deduction, and Filing Information, for information.

Tax credits. You can take projected tax credits into account in figuring your allowable number of withholding allowances. Credits for child or dependent care expenses and the child tax credit may be claimed using the **Personal Allowances Worksheet** below. See Pub. 919, How Do I Adjust My Tax Withholding, for information on converting your other credits into withholding allowances.

Nonwage income. If you have a large amount of nonwage income, such as interest or dividends, consider making estimated tax payments using

Form 1040-ES, Estimated Tax for Individuals. Otherwise, you may owe additional tax. If you have pension or annuity income, see Pub. 919 to find out if you should adjust your withholding on Form W-4 or W-4P.

Two earners or multiple jobs. If you have a working spouse or more than one job, figure the total number of allowances you are entitled to claim on all jobs using worksheets from only one Form W-4. Your withholding usually will be most accurate when all allowances are claimed on the Form W-4 for the highest paying job and zero allowances are claimed on the others. See Pub. 919 for details.

Nonresident alien. If you are a nonresident alien, see Notice 1392, Supplemental Form W-4 Instructions for Nonresident Aliens, before completing this form.

Check your withholding. After your Form W-4 takes effect, use Pub. 919 to see how the amount you are having withheld compares to your projected total tax for 2011. See Pub. 919, especially if your earnings exceed \$130,000 (Single) or \$180,000 (Married).
